Technology Advisory Committee (TAC)

The Technology Advisory Committee exists to advise in the evaluation of potential system improvements, performance enhancements and/or emerging technologies that may lead to greater support of the stated goals of the Poudre School District. The committee is comprised of community stakeholders, as well as technical and non-technical district staff. The committee reports directly to the district's Director of Information Technology.

Why was the Technology Committee created?

- To advise the district in determining appropriate technology funding solutions
- To advise in the compatibility assessment of new technology choices with existing and emerging solutions
- To gauge the district's flexibility to adopt emerging technologies and funding choices
- To advise in the alignment of technology projects with district goals

What is the composition of the Technology Committee?

- PSD Information Technology Director (Chair)
- PSD Instructional Technology Director
- (1) Member of the PSD Mill/Bond Committee
- (2) Members of the Fort Collins General community at-large
- (1) Member of the Fort Collins Business community at-large
- (1) Member of the Fort Collins Higher Education community at-large
- (2) Parents of PSD students
- (1) Member of the PSD Instructional Technology Team
- (1) Member of the PSD Information Technology Team
- (1) Member of the PSD Business Services Team
- (1) Member of the PSD School Administrative Team (Secondary Administrator)
- (1) Member of the PSD School Administrative Team (Elementary Administrator)

What are the term lengths for the Technology Committee?

- 2 Years for PSD Employees
- 1 Year for PSD Committee members
- 1 Year for At-Large members

What is the selection process for the Technology Committee?

- Complete the attached volunteer form and return it to byocom@psdschools.org. Submission deadline is Tuesday, October 23, 2012 by 4:30 p.m.
- Form to be evaluated by a selection committee for experience, applicable group membership, and team fit
- Selectees to be notified individually

Anticipated results of the Technology Committee.

- A central process for the adoption of new hardware and software
- Alignment of instructional technologies with curriculum
- Alignment of technology projects with district goals and the District Technology Plan
