Context:

PSD's District Accountability Committee (DAC) is made up of parent and school representatives who work together to offer recommendations about the district's improvement plan, spending priorities, educator effectiveness student outcome measures, and charter schools to the PSD Board of Education. It also increases the level of parent engagement in the district.

Problem Statement:

PSD has evidence of persistent opportunity/outcome gaps for historically marginalized populations, and graduation rates that are not commensurate with PSD's high level of student achievement.

Opportunity Statement:

Including community members in the planning and monitoring of leadership efforts will increase ownership, alignment, and effectiveness of priority improvement efforts systemwide.

Intent:

1. To develop and maintain ownership and alignment regarding how PSD is optimizing student experiences and outcomes through evaluation, improvement planning, and budget allocation.
2. Ensure that voices representing a wide array of perspectives are elevated in PSD leadership conversations and resulting decisions.

Desired Outcomes for this Meeting:

1. DAC informed regarding budget process and input regarding PSD budget priorities gathered.
2. DAC updated on PSD Strategic Plan and UIP implications.
3. Class of 2022 graduation rates, summer programming outcomes, student connections discussed.
4. Feedback gathered regarding potential staff evaluation process change for 2023/24
