PURSUE YOUR PASSION THIS SUMMER!

Are you looking for a chance to go deep with science? Are you excited about applying your math knowledge to real world problems? Do you wonder about how hybrid vehicles work or are curious about the science of fire? The **STEM** Institute will provide you with an opportunity to explore and discover Science, Technology, Engineering and Math. The **STEM** Institute offers a wide variety of topics and settings from aerospace to digital art and from robotics to video game programming.

One way to excite this generation about the wonders of SCIENCE, TECHNOLOGY, ENGINEERING, MATH is to create opportunities for them to actively participate in challenging and engaging **STEM** classes.

Come Join the Fun!
