Context:

PSD's District Accountability Committee (DAC) is made up of parent and school representatives who work together to offer recommendations about the district's improvement plan, spending priorities, educator effectiveness student outcome measures, and charter schools to the PSD Board of Education. It also increases the level of parent engagement in the district.

Problem Statement:

PSD has evidence of persistent opportunity/outcome gaps for historically marginalized populations, and graduation rates that are not commensurate with PSD's high level of student achievement.

Opportunity Statement:

Including community members in the planning and monitoring of leadership efforts will increase ownership, alignment, and effectiveness of priority improvement efforts systemwide.

Intent:

1. To develop and maintain ownership and alignment regarding how PSD is optimizing student experiences and outcomes through evaluation, improvement planning, and budget allocation.
2. Ensure that voices representing a wide array of perspectives are elevated in PSD leadership conversations and resulting decisions.

Desired Outcomes for this Meeting:

1. Remain up-to-date on [Long Range Planning](#).
2. Review Monitoring Report DE 1.0 key findings and Strategic Plan progress.
3. Prepare for upcoming input on UIP revisions for 2024/25.
4. Conclude 2024/25 DAC recruitment process.
5. Increase trust and relationship within the DAC.
