

## **IGD - CURRICULUM ADOPTION**

The Board of Education is required by state statutes to determine the educational programs to be carried on in the schools of the district and to prescribe the textbooks for any course of instruction or study in such programs.

Accordingly, after planning by the faculty and with the approval of the administration, all new programs and courses of study, as well as the elimination and extensive alteration of the content of current programs and courses, shall be presented by the superintendent to the Board for its consideration and action.

Generally, new programs shall be introduced on a pilot basis and shall be reviewed at least annually with a report submitted to the Board. Courses recommended for pilot status shall be approved by the school unit, the district curriculum team, and reviewed by the principals group and appropriate advisory teams. When the administration feels that a pilot course should become a regular part of the curriculum, such a recommendation shall be presented by the superintendent to the Board for approval.
