

Gifted and Talented

POUDRE SCHOOL DISTRICT

Timnath Middle High School

At TMHS we develop authentic ALPs for each gifted student. In the fall, our GT Site Coordinator analyzes all academic data for incoming 6th and 9th grade students and other students new to the district to ensure fidelity to the identification process.

TMHS's Gifted and Talented Program supports the whole child and acknowledges the advanced student's personal, social, and academic needs. We support growth and achievement utilizing differentiated learning in classroom curriculum, with extracurricular opportunities, and community-based experiences.

Overview of the GT program at this school

TMH's GT Program:

- Provides advanced learning opportunities with appropriately higher learning standards.
- Provides social and emotional guidance and enrichment activities in and out of the classroom.
- Acknowledges strengths and interests using a whole child approach.
- Guides the student in selecting enrichment, elective, and extra-curricular opportunities.

Advanced Learning Plan process at this school

Please use this [ALP Road Map](#) to learn about our ALP process for 2023-2024.

Programming opportunities for GT students

Leadership classes in both middle and high school, math and world language middle school courses for high school credit, Concurrent Enrollment, Advanced Placement course, Work Based Learning and ACE for high school students.

- Extended Learning Opportunity (ELO)
- Appropriate pacing through acceleration and curriculum compacting, and differentiated curriculum, instruction, and assessment.

Enrichment opportunities for GT students during school

For more information regarding some course descriptions, please visit our Academics Tab at TMHS's website at: tmh.psdschools.org

- Leadership Classes
- Post-Secondary planning in Xello

Enrichment opportunities for GT students before or after school

- Athletics
 - School initiated club
 - Student initiated clubs
- Many more clubs and offerings will continue to be offered as we grow!

Affective programming for GT students

The GT Coordinator, TMHS teachers and counselors, work with GT students on their affective ALP goals. Students are given guidance to choose the affective goal that they would like to work towards. There are additional ELO small groups for more in-depth goals such as time management and organization and stress management and healthy habits.

Grade-specific GT services

6th grade students have the opportunity to receive accelerated math and world language instruction. 8th grade students have the opportunity to attend a college preview field trip. All students have the opportunity to attend CSU's Engineering Day in April.
