

Long's Peak Science & Engineering Fair 2004

Congratulations to the Blevins science students who competed in the Longs Peak Science & Engineering Fair at the University of Northern Colorado.

The following students received **special recognition** for their projects:

Brian Saboy Junior Division

Alex Dawson Senior Division

Alysha Casnellie Senior Division

Michael Bishop-Hoyt Senior Division

Eddie Hulings Senior Division

The **Army** presented 4 special awards, of which three went to Blevins JHS students:

Eddie Hulings

Alysha Casnellie

Melanie Mackes

D.J. Ozello was given a special award from the **Navy** and will receive \$50. The Navy only gives two of these awards.

In addition to the Army recognition, Melanie Mackes also received 1st place from the **Soil and Water Conservation Society** and the prestigious **Intel Excellence in Environmental Science Award**, which includes \$200.00. Intel is the corporate sponsor for the Science Fair at both the National and International levels. Intel only gives one Environmental Science Award.

Melanie and D.J. will be representing Blevins at the **State Competition in the Senior Division**. Blevins is the only school to represent Ft. Collins at the State Competition in the high school senior division. The State Competition will be held at Colorado State University on April 9th, 2004.

D.J. has earned an invitation to the **Intel International Science and Engineering Fair** competition in Portland Oregon the week of May 9th. Only two students from the regional fair are given all expense paid trips to the international competition.

The science department is very proud of the hard work and dedication these students have demonstrated.
