

JLA - STUDENT INSURANCE PROGRAMS

A student accident insurance program providing broad accident coverage at nominal cost to parents/guardians shall be made available to all students. Such protection, when purchased by the parent/guardian, shall cover the student for accidents while at school, an hour before and after school, and when engaged in school-sponsored activities. Through this plan, additional accident insurance coverage may be purchased which will provide students with 24-hour accident coverage and/or accident coverage when participating in the senior high football program.

Before any student shall be permitted to participate in any school sports activities, this insurance must be purchased or the student must provide proof of other health insurance.

Current practice codified 1995

Adopted: May 22, 1995
