

2021-22 PSD Return to Learn/Work after Major or Minor Illness Symptoms

Note: This guidance is NOT intended for cases or close contacts of COVID-19. A confirmed COVID-19 case or close contact should follow public health isolation or quarantine instructions for return to school/work.

Major Symptoms:

- | | | |
|---------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|
| <ul style="list-style-type: none">Feeling feverish, having chills, temperature of 100.4° F or greater | <ul style="list-style-type: none">New or worsening coughLoss of taste or smell | <ul style="list-style-type: none">Shortness of breath or difficulty breathing |
|---------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|

Major Symptom Response:

- If symptoms resolve within 24 hours of onset follow regular return to school illness policies if all symptoms have resolved or are improving. **(Must have no fever, vomiting or diarrhea in last 24 hours).**
- If symptoms DO NOT resolve within 24 hours, either:
 - Follow home isolation for 10 days following symptom onset AND 24 hours fever free without use of fever-reducing meds before returning to school.
 - Get a PCR or molecular COVID-19 test.
 - If the test is negative, return to school once symptoms have resolved or are improving.
 - If positive, follow home isolation for 10 days following symptoms onset AND 24 hours fever free without use of fever-reducing meds before returning to school.

Minor Symptoms:

- | | | |
|---------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
| <ul style="list-style-type: none">Sore throatRunny nose or congestionMuscle or body aches | <ul style="list-style-type: none">HeadacheFatigue | <ul style="list-style-type: none">Nausea, vomitingDiarrhea |
|---------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------|-----------------------------------------------------------------------------------|

Minor Symptom Response:

- If symptoms resolve within 24 hours of onset, follow regular return to school illness policies if all symptoms have resolved or are improving. **(Must have no fever, vomiting or diarrhea in last 24 hours).**
- If symptoms are mild only and resolve within 48 hours of onset, follow regular return to school illness policies if all symptoms have resolved or are improving. **(Must have no fever, vomiting or diarrhea in last 24 hours).**
- If symptoms DO NOT resolve within 48 hours, either:
 - Follow home isolation for 10 days following symptom onset AND 24 hours fever free without use of fever-reducing meds before returning to school.
 - Get a PCR or molecular COVID-19 test.
 - If the test is negative, return to school once symptoms are resolved or are improving.
 - If positive, follow home isolation for 10 days following symptoms onset AND 24 hours fever free without use of fever-reducing meds before returning to school.

The School Nurse or PSD health staff will determine when a student is able to return to school. School administrators, department leaders, or supervisors will communicate with staff about their return to work.
