

2021-22 PSD Return to Learn/Work after Major or Minor Illness Symptoms

Note: This guidance is NOT intended for cases or close contacts of COVID-19. A confirmed COVID-19 case or close contact should follow public health isolation or quarantine instructions for return to school/work.

Major Symptoms:

- | | | |
|---|---|---|
| <ul style="list-style-type: none">Feeling feverish, having chills, temperature of 100.4° F or greater | <ul style="list-style-type: none">New or worsening coughLoss of taste or smell | <ul style="list-style-type: none">Shortness of breath or difficulty breathing |
|---|---|---|

Major Symptom Response:

- If symptoms resolve within 24 hours of onset follow regular return to school illness policies. In all cases, to return student must have **no fever, vomiting, or diarrhea in prior 24 hours without use of medication.**
- If symptoms DO NOT resolve within 24 hours, either:
 - Follow home isolation for 5 days following symptom onset AND 24 hours diarrhea, vomiting or fever free without use of medications before returning to school on or after day 6. **Masking on days 6-10 required. OR**
 - Take a test for COVID-19. This could be an at home test or a test at a testing site. At home tests require a photo of the test results with name, date of test and time test was taken. Photo must be taken at time of reading the results.
 - If the test is negative, return to school once symptoms have resolved or are improving.
 - If positive, follow home isolation for 5 days following symptoms onset AND 24 hours vomiting, diarrhea, and fever free without use of medications before returning to school on or after day 6. **Masking on days 6-10 required.**
 - Submit properly labeled at-home test photo or lab test results to school health office via email.
- Symptoms must be improved and not interfere with learning or effective mask wearing. **Those with a medical mask exemption who do not test or have a positive result must remain out of school the full 10 days, returning on day 11.**

Minor Symptoms:

- | | | |
|---|--|---|
| <ul style="list-style-type: none">Sore throatRunny nose or congestionMuscle or body aches | <ul style="list-style-type: none">HeadacheFatigue | <ul style="list-style-type: none">Nausea, vomitingDiarrhea |
|---|--|---|

Minor Symptom Response:

- If symptoms resolve within 24 hours of onset, follow regular return to school illness policies. **Must have no fever, vomiting, or diarrhea in last 24 hours without taking medication.**
- If symptoms are mild only and resolve within 48 hours of onset, follow regular return to school illness policies.
- If symptoms DO NOT resolve within 48 hours, either:
 - Follow home isolation for 5 days following symptom onset AND 24 hours diarrhea, vomiting or fever free without use of medications before returning to school on or after day 6. **Masking on days 6-10 required. OR**
 - Take a test for COVID-19. This could be an at home test or a test at a testing site. At home tests require a photo of the test results with name, date of test and time test was taken. Photo must be taken at time of reading the results.
 - If the test is negative, return to school once symptoms have resolved or are improving.
 - If positive, follow home isolation for 5 days following symptoms onset AND 24 hours vomiting, diarrhea, and fever free without use of medications before returning to school on or after day 6. **Masking on days 6-10 required.**
 - Submit properly labeled at-home test photo or lab test results to school health office via email.
- Symptoms must be improved and not interfere with learning or effective mask wearing. **Those with a medical mask exemption who do not test or have a positive result must remain out of school the full 10 days, returning on day 11.**

The school nurse or PSD health staff will determine when a student is able to return to school. School administrators, department leaders, or supervisors will communicate with staff about their return to work.
