

Scenario A2

The same as Scenario A1, with the following change:

West +
Alt

Make Cache la Poudre Elementary and Middle Schools Expeditionary Learning Schools, leaving the neighborhood boundaries in place, and move Polaris Expeditionary Learning School to the CLP campuses, combining them to make a K-12 campus with elementary students at CLPE and grades 6-12 at CLPMS.

Benefits

- Expands access to expeditionary learning model
- Saves about 25% of size factor adjustment (\$1.6-1.8m)

Additional Considerations

- Distance to Cache La Poudre is abt. 10-12 minutes northwest of Polaris's current location
- No public bus transportation to CLP
