comprising Classified,
Licensed and
Administrative staff

You Belong in PSD

There's a place for everyone in Poudre School District. Whether enrolling in a two-year or four-year college or university after high school, joining the military, spending time in a transition program until the age of 21, or heading straight into the workforce, it's our goal to ensure all students graduate with options.

PSD students build foundational academic and social and emotional skills from the start in traditional neighborhood schools, neighborhood schools with a specialized program or focus, and 100% choice schools. There is no one path to success – each child's educational journey is as unique as they are. Come see why you belong in PSD!

Find Your Niche

Each PSD school prides itself on offering a unique culture and a welcoming school community. In addition to traditional education options, select PSD schools offer unique programming to help students become responsible global citizens, grow critical thinking and problem-solving skills, learn multiple languages, and build character.

Building the Future

PSD has some of the most robust and comprehensive career and college preparation programming in the state. Each year, thousands of PSD students graduate with free college credits, industry certifications, and sometimes even full associate degrees.

*Neighborhood schools serve the neighborhood around them, while 100% choice schools have no attendance boundaries and enroll applicants from across the district.

What Makes our Community Special

Poudre School District may seem like a large district. We cover more than 1,800 square miles in northern Colorado, including the City of Fort Collins, Laporte, Timnath, Wellington, Red Feather, Livermore, Stove Prairie, and parts of Windsor and Loveland. In many ways, though, it feels like a small community - made up of parents and family members, staff, community partners, employers, and so many more who work together to support our students.

Northern Colorado is uniquely known for its collaboration. People from all areas of life -- be it nonprofits, businesses, service organizations, faith partners, and so many more -- are focused on how best to serve our children and young people. They believe that a healthy public education system is key to a healthy and vibrant community.

"We moved back to Colorado from Georgia, and the kids found it really easy to make friends here. They love all of the specials because they didn't get them in Georgia, and as a family, we've found it to be a very caring and safe environment. In a short amount of time, we've been able to connect with other families and get to know everyone in the school."

— Courtney Aspinwall, Bamford Elementary Parent
