

Installing Software at Home

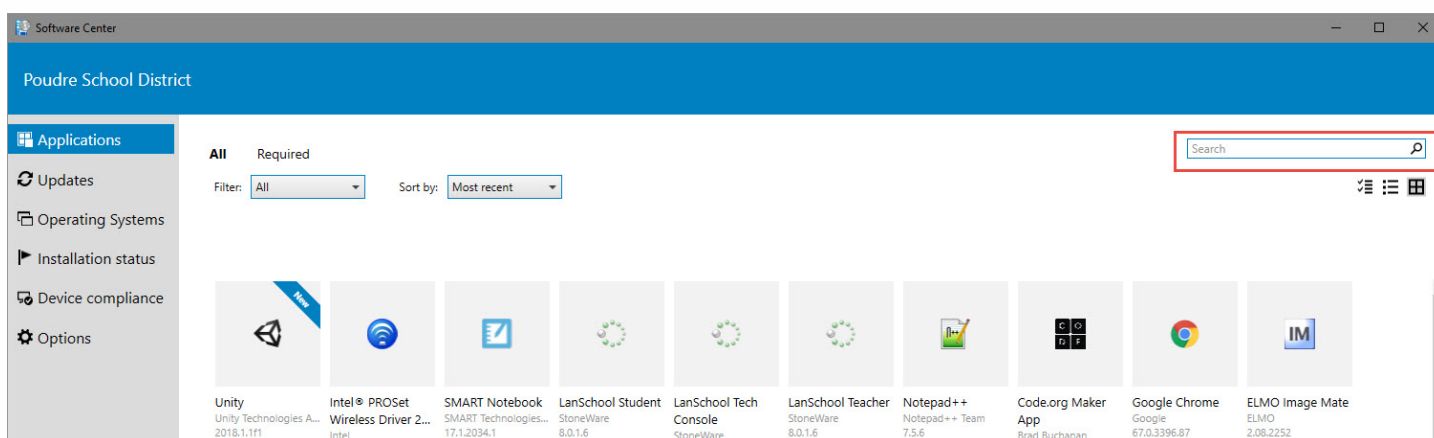

Software Center

Some students need access to specific software for classwork. This guide shows you how to use **Software Center**, an application on your computer, to find and install software from home.

1. Click the **Start Menu** in the bottom-left corner and then type “**software center**”.
2. Select the “**Software Center**” app from the search results.

3. Once **Software Center** is open, click in the search box for the application you would like to install.

If you have any questions regarding these directions, please reach out to the PSD IT Support Center at covidtechhelp@psdschools.org

TIP: Not seeing an application? Send an email to covidtechhelp@psdschools.org.

- Click on the application icon you want and then **"Install"**.
