Solicitation 19-680-006 - Program Refresh for Endpoint Devices
Buying Organization Poudre School District

No	Question/Answer	Question Date
Q1	<p>Question: CDW-G Questions</p> <p>8.5.6 Regarding the 2-in-1, does the district want a x360 or detachable tablet</p> <p>8.5.18 and 8.5.19 Does the district require Adobe software certifications on the workstations products</p> <p>Answer: 1)A x360 device would be considered a 2-in-1. Anything with a hard attached keyboard would be considered a 2-in-1 configuration. Anything with a detachable keyboard will fall under a tablet configuration. Both are desired in their areas and will be accepted as potential options. PSD will apply the specifications to the devices based on 2-in-1s having attached keyboards and tablets having detachable keyboards.</p> <p>2)For 8.5.18 PSD is not requiring Adobe Certification for the workstations, but all submissions in this category must meet the suggested specifications for the Adobe CC Suite and preference will be extended to models including that certification. For 8.5.19, no Adobe Certification is required.</p>	04/01/2019
