

## POUDRE SCHOOL DISTRICT R-1

### DISTRICT-WIDE CELLULAR and DIGITAL TRUNKED RADIO DISTRIBUTED ANTENNA SYSTEM CONTRACTOR

**RFP #20-680-008**

#### **Addendum 6.0**

**ADDENDUM POSTING DATE:** Tuesday, March 17, 2020

**RFP CLOSING DATE:** March 31, 2020

---

Questions were asked at the March 12<sup>th</sup> walkthroughs. The questions and responses follow.

1. Are there areas where no coverage is needed?  
All areas of the main buildings require acceptable coverage. There is no coverage required in modular buildings.
2. Are there areas where asbestos is a consideration?  
There should not be any issues in any buildings. Joint compound may or may not be asbestos, but any drill holes would require shaving cream technique to minimize dust. Ceiling tiles should be fine. PSD can be available once a contractor is picked to look into specific areas of the building.
3. Who will supply AC power?  
PSD electrical dept will be responsible for supplying AC power
4. Who will provide roof penetration?  
PSD carpentry shop will be responsible for providing roof penetration
5. Can you supply a map with Comm/Data rooms highlighted?

The floor plans with the Comm/Data rooms marked will be emailed to the contractors who participated in the March 12<sup>th</sup> walkthroughs.

6. From what we could tell on the Poudre High School plans that were provided, it appears there are some modulares outside of the High School. Are those modulares requiring cellular and public safety radio coverage?

No coverage is required in modular buildings.
