Five servings of fruit and vegetables:

- Fruits and veggies:
 - Are high in vitamins.
 - Are naturally sweet.
 - Taste good!
- **Be a role model:** Kids (and adults!) try to eat at least five servings of fruits and vegetables every day (that’s two servings of fruit and three servings of vegetables!)
- A serving is about the size of your fist- it depends on your age.
- Frozen/canned fruits and veggies are nutritious too!

Two hours or less of screen time:

- Too much screen time:
 - Makes it hard to focus in school.
 - Takes up time for playing, being active and using your imagination!
 - Makes it hard to get good sleep.
- **Be a role model:**
 - Turn off the screens during mealtime.
 - Watch, listen and play together. Talk about what is happening on the screen.
 - Keep a balance: mix screen time with other activities.
- Turn off the screens an hour before bedtime.

One hour or more of physical activity:

- Physical activity:
 - Boosts brain power!
 - Makes you feel good.
 - Makes your heart happy.
 - Makes you stronger.
- **Be a role model:** Schedule active family play time every day!

Zero sugary drinks:

- Kids who eat healthy, drink enough water and sleep well at night will have more energy for school and activities!
- **Be a role model:**
 - Water is the #1 thirst quencher!
 - Drink water or milk instead of soda, sports drinks, juice or drinks sweetened with sugar.
 - Make water more flavorful by adding fruits, veggies or herbs.
