

CHEMICAL INVENTORY FORM

In accordance with the Department of Public Health and Environment Rules and Regulations Governing Schools, the Custodial Services department maintains records of all chemical inventory and safety data sheets at each site:

8-108 *All chemicals, solvents, and hazardous substances shall be inventoried by the school a minimum of once a year. The inventory shall include the name of the compound, the amount, and the date it entered the school. A copy of the inventory shall be kept on file in a location away from the areas where the aforementioned materials are stored.*

8-109 *A current material safety data sheet shall be provided for all poisonous, toxic, or hazardous substances and shall be available for review upon request.*
