WHERE: Poudre High School
ADDRESS: 201 Impala Drive
Fort Collins, CO 80521

1. A representative from the manufacturer of the product to be used by the awarded contractor shall provide a written statement to verify that the surfaces are properly prepped to receive the manufacture's product and that the appropriate product has been chosen according to all existing conditions of each area of the project.
2. Transition strips shall only be used where the new coating is to meet carpeting.
3. Failed material on the ramp area leading to rooms 209 and 211 shall be removed and replaced with proper materials before coating.
4. Moisture testing shall be done prior to installation to determine if alternate products are needed in any areas.
5. All areas and objects that could be contaminated during the preparation or application stages of this project shall be sealed off by contractor prior to start of project and shall be verified by the District Project Manager.
